Farm Commodity Options Trading Due to Start in 1984

American Banker - October 10, 1983, Monday

WORD COUNT: 3,360

BYLINE:

By MICHAEL T. BELONGIA; The trading of options on farm commodities, long banned, is due to resume on a pilot basis late next year. The advantages of this trading over the playing of the straight commodity futures market and over government price supports in bolstering farm income, plus how the system works, were discussed by Mr. Belongia in the June/July issue of "Review," published by the research and public information department of the Federal Reserve Bank of St. Louis. Excerpts of the article appear here.
